

As one of America's 10 largest security providers, we put our clients first.

**BEST IN CLASS  
TECHNOLOGY PLATFORMS**

**COAST TO COAST  
OPERATIONS**

**EXPERIENCE WITH 75  
FORTUNE 500 COMPANIES**

**TWO U.S. BASED SECURITY  
OPERATIONS CENTERS (GSOC)**

## SWITCHING SECURITY PARTNERS CAN BE INTIMIDATING. HERE'S WHAT WE'RE DOING TO MAKE IT EASIER.

**01**

### **REQUEST FOR PROPOSAL:**

Once you request a proposal via phone, email, or through our website, we'll respond no later than the next morning, weekends included.

**02**

### **SITE VISIT:**

A site visit is scheduled by one of our operations or business development professionals within one business day.

**03**

### **CLIENT SITE SURVEY:**

When authorized, our representative(s) will visit and tour your facility, building, campus, or community. He or she will gather pertinent information from key personnel while examining assets and potential liabilities associated with the building(s), technology in use, and several other variables not disclosed in this format. This process usually requires 2-4 hours on site, but could also take several days.

04

**PROGRAM EVALUATION:**

Within 7 business days, a program evaluation is created by combining information from the client site survey with other data that was derived by information commonly found in the public domain. The complete evaluation is reviewed by Security Operations professionals at the local level, as well as nationally by our vertical market experts (our version of a SME).

05

**RECOMMENDATIONS:**

These are provided within the prescribed amount of time allotted for in the RFP. Our proposal will be submitted with additional recommendations included (if any).

06

**PARTNERSHIP AWARDED:**

Start date is determined by you and reviewed by our operations, talent acquisition, and compliance teams within 24 hours. We'll create a 30-day transition plan and begin securing your facility/facilities.

07

**POST START-UP:**

We will review your security program on a quarterly basis at a quarterly business review (QBR). These reviews can be in-person, remotely, or in-writing.
